

A digital waiter for restaurants

A tablet on every table: a menu in several languages, ordering and payment from the table, a waiter call button, AI recommendations for dishes and drinks. Helps raise the average check and take load off the staff.

Monthly fees ₪ per month

	Standard with JET MEDIA ads, never competitors' ads		Premium no third-party ads	
	Low season April–October	High season November–March	Low season April–October	High season November–March
Platform per restaurant	1,900	5,800	3,800	11,600
Device each one, 1 per table	240	590	480	1,180

Monthly price = platform + device × number of tables

Examples ₪ per month by season, and per year

Tables	Standard			Premium		
	Low season	High season	Per year	Low season	High season	Per year
5	3,100	8,750	65,450	6,200	17,500	130,900
10	4,300	11,700	88,600	8,600	23,400	177,200
20	6,700	17,600	134,900	13,400	35,200	269,800

A year = 7 low-season months + 5 high-season months
